An Expensive Game For You!

If you see a Chair in our store marked \$3 and in another store you see the same chair marked \$1.98, your first conclusion is that the first store is high. Some merchants take advantage of this. They mark a ridiculously low price on things whose prices people can compare while shopping around. Then, on other things they boost the prices unreasonably high. You are misled by this, and you pay too much for the most of your goods. In this store everything is marked at a uniform small profit. Chairs are priced this way.

Most of the business section of Millersburg burned yesterday, the loss being close to \$150,-000. The fire originated in a commission house from sparks from a railroad engine in a switching yard nearby. The Paris fire company and firemen from Carlisle were rushed to taining over a million pounds of tobacco were consumed. The L. and N. Depot and the Colored Methodist Church were also destroyed The flames reached "Georgetown," a Negro settlement, and caused much damage.

About 700,000 pounds of tobacco belonging to the 1909 pool was destroyel, along with the hree warehouses from the Hutchcraft building.

In all, over 20 buildings were burned, 15 of them being Negro dwellings, the latter being uninsured, but all other property was covered

"Lame Well"

"I wish to say that I have used Sloan's Liniment on a lame leg that

has given me much trouble for six months. It was so bad that I couldn't walk sometimes for a week. I tried doctors' medicine and had a rubber bandage for my leg, and bought everything that I heard of, but they all did me no good, until at last I was persuaded to try Sloan's Liniment. The first application helped it, and in two weeks my leg was well."—A. L. HUNTER, of Hunter, Ala.

AUTO ACCIDENT

Yesterday afternoon Mr. Jack Newell, accompanied by Messrs. James Cullen, Charles Mitchell and Lewis Pelham, were out auto ridog, and when near Wedonia quite an accident befell the quartette. Mr. Newell was running the machine and to avoid a collision with a vehicle he applied the breaks and swerved his machine so suddenly as to turn it over. Fortunately no one was hurt other than a few scratches, but the auto, however, did not esape so easily-a punctured tire and other damages was its portion. The machine was new, and we understand it was Mr. Newell's

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

Minneapolis, Minn.: - "I was a great sufferer from female troubles which caused a weakness broken down condition of the system. read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women, I felt sure it would help me, and I must say it did help me wonderfully. Within three months I was a perfectly well woman.

"I want this letter made public to show the benefits to be derived from Lydia E. Pinkham's Vegetable Compound."—Mrs. John G. Moldan, 2115 Second St., North Minneapolis, Minn.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

The Old Reliable

Is a name that fitly describes Skinner's satin. The shades are very pretty and the wearing quality is so widely recognized it need not be dwelt upon. Many women use this sturdy satin not only for linings but for petticoats as it will outwear taffeta many times. One yard wide, one dollar a yard.

Redfern Corsets

Why are Redfern Corsets so much more comfortable than others? is a question frequently asked. The answer is, "Whalebone." No substitutes used for economy's sake have the lightness, elasticity, pliability and springiness that make whalebone the ideal corset boning. Be fitted to a Redfern, wear it according to directions and see how comfortable you are, how your figure is improved, what an air of distinction is given i your gown. Prices \$4, \$5, \$6—and they are cheaper than corsets that cost a fourth less because Redfern means comfort, style and long wear.

THRILLING ACCIDENT

before the season opens.

Blind Horse Attached to Buggy Takes Nerve Racking Tumble—Marvelous Escape of Mrs. Ida Crosby

There was an accident in West Fourth street yesterday about 12:30 that curdled the blood of those who were unwilling witnesses of the thrilling scene. The vacant lot between the Robert Ficklin property and that of Thomas Malone is some ten or twelve feet below the surface of the street and pavement, and the intervening space along the sidewalk is unprotected by either fence or guard rail.

Yesterday Mrs. Ida Crosby, wife of Newton the wonderful tumble. Crosby, residing on the Russell farm, bear Clark's Station, came to the city, accompanied by a colored girl. The borse driven to the buggy was bind. A ra. Cro by drove up to the Malone residence in West Fourth street and alighted, leaving the colored virl in charge of that is Catarrh. Big Yellow Backs and Other Magazines Must Pay a Cent a **Pound Postage**

President Taft will recommend that the magazines be required to pay the present rate of one cent a pound on all reading matter, and a much higher rate, to be determined later, on the advertising pages.

Each magazine will be required to send a copy of its current issue to the Postoffice Department each week, or month, as the case may be. There the publication will be dissected. The reading matter and the advertising sections will be separately weighed and the amount of postage computed by the number of magazines sent out.

Newspapers will not be affected.

The average haul of the newspaper is but 300 miles, while the average haul of the magazine is 1,100 miles.

The crowds that filled our store all day Saturday were ample evidence to prove to us that we are on the right track. We will keep on going. Big bargains all over the store this week. Ladies, read carefully and don't miss this chance.

Gas Light Talks-No. 45.

City Lighting.

Number nine of Mayor Lee's questions reads as follows: How can you consistently reduce the price of current 331 per cent. to private consumers and refuse any reduction to your largest consumer, the City of . Maysville?

We told you in Talks Numbers 14 and 15 why the rates to private consumers were reduced.

In yesterday's Talk, we told you that we were under contract to supply the city with street lights at a definite rate-\$75 per lamp, per year. Statistics show this rate to be absolutely fair and even low as compared to the rates prevailing in other cities of equal or larger size.

And the service supplied at this rate has given Maysville the reputation among men who know, of being one of the best lighted cities, re-

gardless of size, in this part of the country.

Now, in order to attain this reputation for the city and to meet the demands put upon us by the city, it was necessary for us to invest thousands of dollars in the city lighting system, not only on the original installation, but on the frequent alterations that are necessary to maintain the system in its modern, up-to-date condition.

And this system is available for no other purpose.

It is a system apart and we cannot use the circuit in the day-time to run motors and supply other commercial consumers, as we can shift what is known as the "day load" to other purposes at night.

No just minded person will deny that we are entitled to a fair return on our investment.

Now, each of the 6.6 ampere lamps used by the city consumes 500 watts an hour. The lamps are in service during 4,000 hours a year. Therefore, the annual consumption per lamp is 2,000,000 watts, or 2,-000 kilowatts. At \$75 per lamp, per year, this figures out .0375 cents per kilowatt, gross.

For this .0375 cents per kilowatt, we are compelled to pay interest on our investment, to take care of the heavy depreciation, which cannot be divided among many consumers as it is on a commercial circuit; to trim and keep in repair all lamps, to maintain the entire overhead system, to supply the current and to pay taxes.

Therefore, when these charges, together with the manufacturing cost, are deducted from the price paid by the city, you will readily appreciate that, while the city lighting contract is an asset, the value of which we do not underestimate or fail to appreciate, it is not so profitable as an uninformed person might imagine.

As a matter of fact, the rate the city pays is, all things considered, more than 60 per cent. lower than the lowest rate to private consumers. This is an exceedingly fair difference in the city's favor in consideration of its being our largest consumer.
